

5 Water permit application to take groundwater

Please answer all questions fully. You should discuss your application with one of Greater Wellington's resource advisors before completing this form.

Show the location of the activity and adjoining properties on your map on Form 1. Include design plans and details with this application as appropriate.

Part A: general

1. Do you propose to take water from an existing bore or a new bore ?

If you wish to drill a new bore you will need to apply for a Land Use Consent as well. Use Application Form No. 9.

If an existing bore, what is the water permit number? _____

If a new bore, what is the land use consent number? _____

2. What will the water be used for? [Tick the appropriate box(es)]

Irrigation State method of irrigation (eg, spray, trickle, other): _____

Industry State type of industry: _____

Community State No. of households: _____

or population: _____

Other State Use: _____

3. What will be the maximum rate at which water is taken? _____ litres per second

_____ hours per day

_____ days per week

_____ weeks per year

4. What is the pump make, type and model? _____

What is the maximum capacity of your pump? _____ litres per second

5. (For irrigation only) What area will you be irrigating?

Crop(s): _____ hectares Crop type: _____

Pasture: _____ hectares Horticulture type: _____

Horticulture _____ hectares

Other: _____ hectares Please specify: _____

(Please show clearly the area to be irrigated on your sketch map on Form 1.)

Part A: general (continued)

6. Why do you need the amount of water applied for?

Part B: assessment of effects on the environment

Where your take could have a significant adverse effect on the environment a more detailed environmental assessment is required in accordance with the Fourth Schedule of the Resource Management Act 1991. Most new applications will require a pump test and analysis of your bore/well to be completed.

1. Comment on any possible environmental effects that may occur and any other information you consider may assist the Council in dealing with your application. This includes the impact of pumping on neighbouring bores/wells:

2. Within 150 metres of the bore are there any:

- | | | |
|-------------------------------------|------------------------------|-----------------------------|
| (1) Septic tanks? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (2) Springs or surface waterbodies? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (3) Other waste disposal areas? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

[Mark these on your sketch map on Form 1.]

3. Are there any alternative water sources available to you? Yes No

If yes, please explain why you have chosen this option and not alternative options:

4. Are there any other takes (e.g., for domestic, stock or irrigation use) in the area? Yes No

If yes, please list persons taking water and mark the location of the take on your sketch map on Form 1.

For office use only

Consent No. _____

Renewal: Yes No
