

13 Land use consent application for soil disturbance

You should use this form if you want to do something which involves soil disturbance. Soil disturbance means the disturbance of land surfaces by blading, blasting, contouring, cultivating, ripping, root-taking, moving, removing soil or earth, by excavation, or by cutting.

Please answer all questions fully. You should discuss your application with one of Greater Wellington's resource advisors before completing this form.

Please enclose a site plan on Form 1 of your application. This should include the area of proposed soil disturbance, any area of significant slope instability, stockpiles, cut and fill areas, property boundaries, neighbouring dwellings and watercourses (including names if known).

Part A: general

1. Please indicate the type of work to be carried out:

Soil disturbance of 500-2,000 m³

Soil disturbance of more than 2,000 m³

2. What is the reason for the soil disturbance?

3. What is the area involved? _____ hectares

4. What is the topography of the area (eg, gently rolling, steep, hilly, flat, etc)?

5. What is the estimated amount of soil to be disturbed? _____ m³ At what rate? _____ m³/yr

6. Please describe the material which is to be disturbed (include soil type, underlying rock, slope, vegetation cover):

Part A: general (continued)

7. Is there a watercourse, dry or flowing, in the vicinity of the activity (include those within 50 m for flat land, and within 500 m for sloping land)? Yes No

If yes, please name and give approximate distance from the activity. Include details of steps you propose to take to ensure that no vegetation, soil, slash or other debris can enter the watercourse:

8. What is the proposed commencement date of the work? _____

9. What is the proposed completion date? _____

10. Please describe how the work will be carried out:

11. Will the work be completed in stages (include the length of time it will take to complete each stage)? Yes No

If yes, in what stages?

12. Is the work: permanent or temporary ?

13. Who will be undertaking the work? _____

14. What are the proposed hours of operation/construction? _____

15. Describe any cut or fill batters, or both (include height, depth of excavation, slope and extent):

16. Will you be stockpiling any material? Yes No

If yes, please describe the dimension, location and duration of stockpiles:

Part B: assessment of effects on the environment

Where your activity could have a significant adverse effect on the environment a more detailed environmental assessment is required in accordance with the Fourth Schedule of the Resource Management Act 1991. A resource advisor can discuss this with you.

1. Are there any alternative locations or methods for carrying out the work? Yes No

(1) If yes, where or how?

(2) Why have you chosen this location or method over the others?

2. Within a reasonable distance of the activity are there any:

- | | | |
|---|------------------------------|-----------------------------|
| (1) Obvious signs of biota (eg, fish, eels, insect life, aquatic plants)? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (2) Areas where food is gathered (eg, fish, kaimoana)? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (3) Wetlands (eg, swamp areas)? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (4) Waterbodies where quality may be affected? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (5) Areas or aspects of significance to iwi that you are aware of? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (6) Stormwater inlets? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (7) Areas of slope instability (eg, slump, earth flow)? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

Describe the plants, animals and habitat of the surrounding area:

If you have answered yes to any of the above, describe what effects your proposed land use consent may have and the steps you proposed to take to mitigate these:

[Continue on a separate page if necessary]

Part B: assessment of effects on the environment (continued)

3. Are you proposing sediment retention and/or sediment run-off control methods? Yes No

If yes, what?

4. Are you proposing any land rehabilitation? Yes No

If yes, what?

5. Do you proposed to undertake any type of monitoring? Yes No

If yes, what?

For office use only

Consent No. _____

Renewal: Yes No
