

The self-guided field trip

If you are not participating in the guided programme, but are interested in organising your own field trip, the Action Crew will lend you the scientific equipment needed for the day, tell you all you need to know to use it, and give you advice on suitable sites for your local area. Visit our website for more details (www.gw.govt.nz).

The stream monitoring kit includes:

6 macroinvertebrate trays and laminated identification charts

6 algae laminated identification charts

6 plastic bottles for sluicing

15 magnifying lenses

1 turbidity or clarity tube

3 thermometers

Plastic gloves

Stream report cards

Instruction manual (6 laminated sheets)
