Summary of Decisions Requested: 3. Objectives

Plan Provision	Submitter Name	Submission point number	Support /oppose	Summary of decision requested
3. Objectives	Porirua City Council	S163/004	Support	PCC supports the overall objectives of the Proposed Plan, to improve water quality and to identify values and places for protection. The integration of five plans into one combined plan is also strongly supported.
3. Objectives	Bryce Derek Wilkinson	S109/001	Oppose in part	Objectives 5, 9-11, 13-31, 34-51, and 58, all be amended to provide that the objective is only to be pursued to the degree that the benefits to affected members of the community exceed the costs.
3. Objectives	NZ Transport Agency	S146/064	Not stated	Add new objective: <u>Discharges associated with regionally significant infrastructure are managed through the adoption of the best practicable option.</u>
3. Objectives	Andrew James Alan McIntyre	S153/008	Amend	Revise Chapter 3 to appropriately enable and address coastal hazard mitigation activities, including protection works.
3. Objectives	NZ Transport Agency	S146/043	Not stated	Add new Objective: <u>To recognise that regionally significant infrastructure represents appropriate use and development in all environments where there are functional needs or operational requirements</u>
3. Objectives	NZ Transport Agency	S146/042	Not stated	Add new objective: <u>The safe, effective and efficient use, operation, maintenance, upgrade and development of regionally significant infrastructure is provided for</u>
3. Objectives	Egon Guttke	S14/008	Amend	Add an objective expressing that measures combating climate change, such as carbon sequestration or the generation of energy from renewable resources, is supported.

3. Objectives	CentrePort Properties Limited	S141/001	Amend	Amend the objectives, policies and rules relevant to the Waterloo Quay Wharf and InterIsland Wharf to provide for the mixed use redevelopment, either as a complete change of use or in combination with Port related activities; and retain underlying provisions relating to port operations in the Commercial Port Area, until such time as mixed use redevelopment occurs; and apply appropriate controls over redevelopment.
3. Objectives	Regional Public Health	S136/002	Support	Support for all objectives with the exception of Objective O24 as referred to in submission point s136/001
3. Objectives	Minister of Conservation	S75/021	Amend	Insert new objective as follows: In areas potentially affected by coastal hazards over at least the next 100 years, increases in risk, residual risk, and adverse effects from coastal hazards, including the effects of climate change on people, property or the environment are avoided.
3. Objectives	Atiawa ki Whakarongotai	S398/002	Amend	Provide individual provisions for ecosystem health and mahinga kai
3. Objectives	Atiawa ki Whakarongotai	S398/005	Support	Objectives in sections 3.1, 3.6, 3.7 are critical. Objectives in sections 3.10, 3.13, 3.16, 3.17 are supported. Objectives that refer to mahinga kai are crucial to role of kaitiaki.
3. Objectives	Atiawa ki Whakarongotai	S398/007	Amend	Where practical the Plan should indicate timeframes within which objectives will be delivered
3. Objectives	Coastal Ratepayers United Incorporated	S93/005	Amend	Develop and include an overarching objective and corresponding policy in respect of use and development in the coastal environment to prevent the Plan from inadvertently preventing activities that might otherwise be contemplated by the NZCPS. [See p3, p15 of original submission for further details].
3. Objectives	Coastal Ratepayers United Incorporated	S93/028	Oppose in part	Revise Chapter 3 to appropriately enable and address coastal hazard mitigation (including protection) activities, especially in areas of significant existing development. All of the matters addressed elsewhere [in the submission] and any suggested changes to provisions are subject to this general decision sought.

3. Objectives	Fish and Game	S308/011	Support	Objectives not covered specifically [elsewhere in the original submission] are supported and Fish and Game seeks that they are retained as proposed
3. Objectives	Carterton District Council	S301/024	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) for communities to remove their discharges of treated wastewater from surface water and to provide for the continued discharge of treated wastewater to water in specific circumstances (subject to discretionary activity consent).
3. Objectives	Wellington International Airport Limited	S282/005	Amend	New Objective O# (amend numbering as necessary) - Development of regionally significant infrastructure Provide for and enable the development and growth of regionally significant infrastructure.

3.4 Natural character, form and function	Samuel Robin Thorne Clark	S57/002	Amend	Create a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised"
3.4 Natural character, form and function	South Wairarapa Biodiversity Group Incorporated	S78/003	Amend	[See decision requested for submission point S78/001].
3.4 Natural character, form and function	Christopher Butler	S96/002	Amend	Revise the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, especially for areas of significant existing development.

3.4 Natural character, form and function	Coastal Ratepayers United Incorporated	S93/012	Amend	Delete Objectives O19-22 and replace with a single objective as follows: "Objective Oxx: Ensure that natural hazard risks taking account of climate change, are managed by: <ul style="list-style-type: none"> • locating new development away from areas prone to such risks; • considering responses, including managed retreat, for existing development in this situation; and • protecting or restoring natural defences to such hazards."
3.4 Natural character, form and function	Christopher Butler	S96/005	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
3.4 Natural character, form and function	Christopher Butler	S96/011	Amend	Undertake s32 evaluations and prepare revised s32 reports in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities.
3.4 Natural character, form and function	Christopher Butler	S96/009	Amend	Revise the PNRP to clarify that hazard identification/risk assessment needs to be an objective process.
3.4 Natural character, form and function	Timothy Bruce Caughley	S39/002	Amend	Include objectives and policies that recognise the importance and benefits of coastal hazard mitigation (including protection) activities, especially in areas of significant existing development. Include objectives and policies that, if a resource consent is required, support that consent being obtained, not provisions that would hinder consent being obtained.
3.4 Natural character, form and function	Quentin Poole	S37/003	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
3.4 Natural character, form and function	Quentin Poole	S37/005	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.

3.4 Natural character, form and function	Quentin Poole	S37/010	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.
3.4 Natural character, form and function	Kahungunu Ki Wairarapa	S300/009	Amend	[Develop methods that recognise and respond to natural character of Wairarapa water ways.]
3.4 Natural character, form and function	Sustainable Wairarapa Inc	S167/007	Not stated	While GWRC has a separate climate change Strategy how has climate change been incorporated in the environmental management outcomes of the NRP?
3.4 Natural character, form and function	Christine Ann Edwards	S53/005	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
3.4 Natural character, form and function	Christine Ann Edwards	S53/009	Amend	Revise the PNRP to clarify that, in contrast to risk management, hazard identification/risk assessment is an objective process and that any scientific or expert reports are to be scientific and objective (not policy-based or precautionary) and report not only likely estimates but also their uncertainties, to enable submitters to participate in an informed way and to enable decision-makers to make informed decisions.
3.4 Natural character, form and function	Suzanne Hall	S54/002	Amend	Create a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised"
3.4 Natural character, form and function	Christine Ann Edwards	S53/003	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
3.4 Natural character, form and function	Christine Ann Edwards	S53/002	Amend	Revise all provisions of the PNRP to particularly enable coastal hazard mitigation activities (including protection) in areas of significant existing development.

3.4 Natural character, form and function	Bob Stewart Family Trust	S166/011	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports, having proper regard to s32 matters, including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.
3.4 Natural character, form and function	Bob Stewart Family Trust	S166/002	Amend	Revise all provisions of the PNRP to particularly enable coastal hazard mitigation activities (including protection) in areas of significant existing development.

3.4 Natural character, form and function	Bob Stewart Family Trust	S166/003	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
3.4 Natural character, form and function	Bob Stewart Family Trust	S166/005	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
3.4 Natural character, form and function	Jenny Clark	S106/005	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
3.4 Natural character, form and function	Christopher Butler	S96/003	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development, and support the right of communities to integrate effectively with their environment.

3.4 Natural character, form and function	Christine Ann Edwards	S53/011	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.
3.4 Natural character, form and function	Jenny Clark	S106/011	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.
3.4 Natural character, form and function	Andrew James Alan McIntyre	S153/003	Oppose in part	Develop and include an over-arching objective to prevent the plan inadvertently preventing activities which might otherwise be contemplated by the New Zealand Coastal Policy Statement.
3.4 Natural character, form and function	Donald Robert Frampton	S16/005	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
3.4 Natural character, form and function	Donald Robert Frampton	S16/009	Oppose	Revise the PNRP to clarify that, in contrast to risk management, hazard identification/risk assessment is an objective process and that any scientific or expert reports are to be scientific and objective (not policy-based or precautionary) and report not only likely estimates but also their uncertainties, to enable submitters to participate in an informed way and to enable decision-makers to make informed decisions.
3.4 Natural character, form and function	Donald Robert Frampton	S16/003	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
3.4 Natural character, form and function	Peter Stevens and Michelle Glogau	S158/011	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.

3.4 Natural character, form and function	Warwick Stanley Wyatt	S63/009	Amend	Revise the PNRP to clarify that, in contrast to risk management, hazard identification/risk assessment is an objective process and that any scientific or expert reports are to be scientific and objective (not policy-based or precautionary) and report not only likely estimates but also their uncertainties, to enable submitters to participate in an informed way and to enable decision-makers to make informed decisions.
3.4 Natural character, form and function	Warwick Stanley Wyatt	S63/002	Amend	Revise all provisions of the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, particularly in relation to areas of significant existing development.
Objective O17: Natural character	Kapiti Coast District Council	S117/014	Support	Retain the objective
Objective O17: Natural character	NZ Transport Agency	S146/046	Support in part	Retain
Objective O17: Natural character	Friends of the Paekakariki Streams	S112/012	Support	[Not stated]
Objective O17: Natural character	Minister of Conservation	S75/018	Amend	The natural character of the coastal marine area, rivers, lakes, <u>natural wetlands</u> and their margins and natural wetlands is preserved and protected from inappropriate use and development.
Objective O17: Natural character	Minister of Conservation	S75/017	Support	Retain as notified
Objective O17: Natural character	Dairy NZ and Fonterra Co-operative Group Ltd	S316/029	Amend	Amend Objective O17 to ensure that coastal and fresh waters are subject to requirements consistent with their respective national policy frameworks. This may include drafting separate objectives for these resources. In respect of the natural character of freshwater resources omit the terms "preserved and protected" and replace with "maintained or improved".

Objective O17: Natural character	Fish and Game	S308/018	Amend	<p>Amend section 3.4 and objectives O17, O19, and O22 to:</p> <p><u>Recognise and preserve aquatic habitat diversity and quality, including the form, frequency and pattern of pools, runs, and riffles in rivers, and the natural form of rivers, lakes, natural wetlands and coastal habitats.</u></p> <p><u>Recognise and preserve freshwater habitats that are important to the life cycle and survival of aquatic species</u></p> <p><u>Avoid effects of land use activities and activities on the margins of freshwater bodies and their beds at times which will affect the breeding, spawning, and dispersal or migration of aquatic species avoid activities and the placement of structures in the bed of freshwater environments which would create barriers to the migration or movement of indigenous aquatic species restore natural character including the connections between fragmented aquatic habitats where degraded</u></p> <p>Specifically require that flood protection and river management activities are undertaken in a manner which recognises and protects the natural character of freshwater and enhances natural character where degraded such that the provisions listed above are achieved and the natural character narrative and index in Table 3.4 Appendix 3 to this submission is met.</p>
Objective O17: Natural character	Kahungunu Ki Wairarapa	S300/006	Support	[Retain]
Objective O17: Natural character	Carterton District Council	S301/026	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Objective O17: Natural character	Wellington International Airport Limited	S282/010	Oppose	Delete O17
Objective O17: Natural character	Rangitane o Wairarapa Inc	S279/028	Support	<p>Retain the objective and undertake a full natural character assessment of the Region's coastal environment to ensure the appropriate natural character values of the coastal environment are preserved and protected.</p> <p>Strengthen objective to give effect to higher order policy documents</p>

Objective O17: Natural character	Royal Forest and Bird Protection Society	S353/018	Support in part	Replace coastal marine area with coastal environment
Objective O17: Natural character	Federated Farmers of New Zealand	S352/068	Amend	Amend as follows: the natural character of the coastal marine area, <u>beds of rivers, and beds of lakes and their margins, and natural significant wetlands</u> is preserved and protected from inappropriate use and development <u>is maintained or enhanced and restored in partnership with landowners and community</u>
Objective O18: Low energy receiving environments	Kapiti Coast District Council	S117/015	Support	Retain the objective
Objective O18: Low energy receiving environments	Vector Gas Ltd	S145/017	Amend	The ecological, recreational, mana whenua, and amenity values of estuaries including their sensitivity as low energy receiving environments are recognised, and their health and function is restored over time, <u>where degraded</u> .
Objective O18: Low energy receiving environments	NZ Transport Agency	S146/047	Support in part	Amend Objective O18: The ecological, recreational, mana whenua, and amenity values of estuaries including their sensitivity as low energy receiving environments are recognised, and their health and function is restored over time, <u>where degraded</u> .
Objective O18: Low energy receiving environments	Friends of the Paekakariki Streams	S112/013	Support	[Not stated]
Objective O18: Low energy receiving environments	Minister of Conservation	S75/019	Amend	Retain as notified
Objective O18: Low energy receiving environments	Porirua Harbour and Catchment Community Trust	S33/002	Support	[Retain Objective O18].

Objective O18: Low energy receiving environments	Masterton District Council	S367/042	Support	Retain the intent of Objective O18.
Objective O18: Low energy receiving environments	Rangitane o Wairarapa Inc	S279/029	Amend	Amend the Objective to ensure that it gives effect to the higher order policy documents, particularly in relation to ecological and mana whenua values.
Objective O18: Low energy receiving environments	Royal Forest and Bird Protection Society	S353/019	Support in part	Replace "recognised" with "safeguarded" in O18
Objective O18: Low energy receiving environments	South Wairarapa District Council	S366/042	Support	Retain the intent of Objective O18.
Objective O18: Low energy receiving environments	Federated Farmers of New Zealand	S352/069	Amend	The ecological, recreational, mana whenua, and amenity values of estuaries including their sensitivity as low energy receiving environments are recognised, and their health and function is restored over time <u>in partnership with landowners and community</u>
Objective O19: Natural processes	Wairarapa Regional Irrigation Trust	S127/007	Amend	Amend objective to refer to minimisation of adverse effects on natural processes
Objective O19: Natural processes	Kapiti Coast District Council	S117/016	Support	Retain the objective

Objective O20: Risk from natural hazards	Wellington Water Limited	S135/041	Amend	Clarify what "acceptable" means in this context.
Objective O20: Risk from natural hazards	Kapiti Coast District Council	S117/017	Support	Retain the objective

Objective O20: Risk from natural hazards	Vector Gas Ltd	S145/019	Support	Retain objective 20
Objective O20: Risk from natural hazards	NZ Transport Agency	S146/049	Support	Retain
Objective O20: Risk from natural hazards	Beth Jones	S137/003	Amend	[I] seek the following decision from WRC: that a separate objective be created for climate change, and that it states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised"
Objective O20: Risk from natural hazards	Richard McIntosh	S64/002	Amend	Add a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised."
Objective O20: Risk from natural hazards	Scott Wayne Cleator	S90/002	Amend	Amend the Plan by including a separate objective for climate change that states: <u>'the risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised'.</u>
Objective O20: Risk from natural hazards	Wellington International Airport Limited	S282/012	Support	Retain
Objective O20: Risk from natural hazards	Joan Allin and Rob Crozier	S175/019	Amend	Retain the objective and, in particular, the term "acceptable". Add at the end of the objective "to those who need to bear them". [See also submission point S175/017]
Objective O20: Risk from natural hazards	Rangitane o Wairarapa Inc	S279/031	Amend	Retain and amended the objective to clearly state what 'acceptable' means
Objective O20: Risk from natural hazards	Royal Forest and Bird Protection Society	S353/021	Oppose	Replace with "The adverse effects from natural hazards and climate change on people, the community, ecological values and infrastructure are anticipated and provided for in a proactive and environmentally sensitive manner."

Objective O20: Risk from natural hazards	South Wairarapa District Council	S366/043	Oppose	Replace the words "are acceptable" with "identified, and where necessary, appropriately managed".
Objective O20: Risk from natural hazards	Federated Farmers of New Zealand	S352/071	Support	Retain
Objective O20: Risk from natural hazards	Jon Andrew Terry	S42/002	Amend	Add a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised".
Objective O20: Risk from natural hazards	Charles William Barrie	S51/002	Amend	Create a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised"
Objective O20: Risk from natural hazards	Keri Molloy	S50/002	Amend	Amend the plan to include a separate objective for climate change: "The risk, residual risk and adverse effects of climate change on people, ecosystems and infrastructure are recognised."
Objective O20: Risk from natural hazards	The Oil Companies	S55/003	Oppose	Modify O20 as follows: The risk, residual risk, and adverse effects from natural hazards and climate change on people, the community and infrastructure are acceptable <u>appropriately managed so that risks remain acceptable</u> .
Objective O20: Risk from natural hazards	Janis Freegard	S49/002	Amend	Amend the Plan to include a separate objective for climate change, as follows: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystems health, mahinga kai and infrastructure are recognised".
Objective O20: Risk from natural hazards	Peter Neil Clayworth	S48/002	Amend	Include a separate objective for climate change that states: "the risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised".

Objective O20: Risk from natural hazards	Masterton District Council	S367/043	Oppose	Replace the words "are acceptable" with "identified, and where necessary, appropriately managed".
Objective O20: Risk from natural hazards	Minister of Conservation	S75/022	Amend	Insert new objective to address coastal hazards [See submission point S75/021]. Ensure that coastal hazards are not [?] addressed by this Objective.
Objective O20: Risk from natural hazards	Powerco	S29/003	Oppose	Modify O20 as follows: The risk, residual risk, and adverse effects from natural hazards and climate change on people, the community and infrastructure are acceptable <u>appropriately managed so that risks remain acceptable.</u>
Objective O20: Risk from natural hazards	Zane Oosten	S47/002	Amend	Create a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised."
Objective O21: High hazard areas	Kapiti Coast District Council	S117/018	Support	Retain the objective
Objective O21: High hazard areas	Vector Gas Ltd	S145/020	Support	Retain Objective O21, subject to provisions which confirm that regionally significant infrastructure is appropriate as sought elsewhere in this submission
Objective O21: High hazard areas	NZ Transport Agency	S146/050	Support in part	Amend Objective O21, to acknowledge that regionally significant infrastructure may be appropriate as sought elsewhere in this submission. <u>Only appropriate use and development, such as regionally significant infrastructure which has been suitably designed, is enabled to establish and operate in</u> inappropriate use and development in high hazard areas is avoided.

Objective O21:High hazard areas	Chorus New Zealand Limited	S144/007	Oppose	Amend Objective O21 as follows: <u>Inappropriate use and development in high hazard areas is avoided, other than (a) where it has a functional need and/or operational requirement to be located there, and/or (b) where it is necessary to enable the efficient operation of regionally significant infrastructure.</u>
Objective O21:High hazard areas	CentrePort Limited (CentrePort)	S121/027	Support in part	Clarify why the Coastal Marine Area is defined as a High Hazard Area and its implications for effects based decision making. Alternatively exclude the Commercial Port Area from the definition of High Hazard Area.
Objective O21:High hazard areas	Friends of the Paekakariki Streams	S112/014	Support	[Not stated]
Objective O21:High hazard areas	Minister of Conservation	S75/023	Amend	Insert new objective to address coastal hazards [See submission point S75/021]. Ensure that coastal hazards are not [?] addressed by this Objective.
Objective O21:High hazard areas	Spark New Zealand Trading Limited	S98/007	Oppose	Amend Objective 21: <u>Inappropriate use and development in high hazard areas is avoided, other than a) where it has a functional need and/or operational requirement to be located there, and/or b) where it is necessary to enable the efficient operation of regionally significant infrastructure.</u>

Objective O21:High hazard areas	Wellington International Airport Limited	S282/013	Support in part	Amend Objective O21 as follows: <u>Inappropriate use and development in high hazard areas is avoided, and where avoidance is impracticable or for reasons of functional need or operational requirements, the effects of use and development in high hazard areas should be remedied or mitigated.</u>
Objective O21:High hazard areas	Joan Allin and Rob Crozier	S175/018	Amend	[See submission point S175/017].
Objective O21:High hazard areas	Rangitane o Wairarapa Inc	S279/032	Support	Retain as notified
Objective O21:High hazard areas	Royal Forest and Bird Protection Society	S353/022	Support	Retain
Objective O22: Hard engineering	Wellington Water Limited	S135/042	Amend	Clarify that hard engineering may be required to protect regionally significant infrastructure when it is the most cost effective measure.

Objective O22: Hard engineering	CentrePort Limited (CentrePort)	S121/028	Oppose	Amend Objective O22 as follows: Hard engineering mitigation and protection methods are only used as a last practicable option <u>unless there is a functional need or operational requirement.</u>
3.5 Water Quality	South Wairarapa Biodiversity Group Incorporated	S78/004	Amend	[See decision requested for submission point S78/001].
3.5 Water Quality	Atiawa ki Whakarongotai	S398/008	Amend	Include estuaries for protection in objectives in section 3.5 water quality
3.5 Water Quality	Fish and Game	S308/148	Amend	Delete Table 3.2 in its entirety.

3.5 Water Quality	Fish and Game	S308/012	Amend	<p>Include objectives policies and standards and where applicable rules which recognise and protect regional sports fish and gamebird populations and their habitats, and which recognise and provide for recreational hunting and angling.</p> <p>Include numerical and narrative freshwater objectives/standards/limits/targets which protect the life supporting capacity, ecological health and processes of freshwater and which provide for recreational sports fish species and which provide for primary contact recreation of freshwater environments.</p> <p>Include new objective or amend existing objectives (such as objective 030) and policies and rules to the effect that.</p> <p><u>" sports fish and angling values of fresh water bodies and the coastal marine area identified in schedule 1 are recognised and provided for; aquatic ecosystem health and natural character of freshwater bodies are protected; policies, limits and methods including rules are established in relation to water quality, natural character, hydrological variability, core allocations and minimum flows such that the habitat of trout and recreational angling values are protected; where an objective/ standard/ or limit set in tables 3.1, 3.2, 3.3 , new freshwater objective 3.1a, or sections 4 or 5 are currently achieved they are maintained; where an objective or standard or target set in tables 3.1, 3.2, 3.3 , new freshwater objective 3.1a, or sections 4 or 5 are not achieved the parameter is improved over time to meet the objective, standard or target."</u></p>
3.5 Water Quality	Fish and Game	S308/149	Amend	<p>Include a new objective which recognises and provides for the protection of the habitat of trout and trout fisher and spawning values as identified in schedule 1 as amended in appendix 1 and 2 of the original submission.</p>
3.5 Water Quality	Fish and Game	S308/021	Amend	<p>Include water quantity freshwater objectives</p>

3.5 Water Quality	Fish and Game	S308/022	Amend	<p>Amend Objective 023 or include new objectives in section 3.5 which ensures that: <u>Water quality of aquifers, lakes, rivers, natural wetlands and coastal water is managed to ensure that:</u> <u>I. Water quality is maintained where the existing water quality is at a level sufficient to support the values of freshwater (listed)</u> <u>II. Water quality is restored where the existing water quality is not at a level sufficient to support the values of freshwater (listed)</u> <u>III. Accelerated eutrophication and sedimentation of waterbodies in the region is prevented</u> <u>IV. The special values of waterbodies protected by water conservation orders are maintained or where degraded are restored</u></p> <p>Such other or further relief as addresses the issues raised by this appeal point</p>
3.5 Water Quality	Fish and Game	S308/024	Amend	<p>Amend the objectives, policies and rules so that numerical water quality and quantity limits and standards are included which ensure that the life supporting capacity and ecosystem health and processes, cultural, primary recreation, the habitat of trout are protected, and that land use activities are managed to achieve these freshwater objectives/standards/ targets over time. Standards/ limits/ targets should be included within the rules to ensure that both non-point and point source discharges and water takes are managed in an integrated way to achieve the freshwater objectives in tables 3.1, to 3.4 and 3.4a, and ensure compliance with the standards set in Schedule 3 of the RMA.</p>
3.5 Water Quality	Fish and Game	S308/026	Amend	<p>Amend tables 3.1 to 3.4 as shown in appendix 4 and 3 of original submission and include new table 3.4a as shown in appendix 2.</p>

Objective O24: Contact recreation and Maori customary use	Atiawa ki Whakarongotai	S398/011	Amend	All rivers, lakes and natural wetlands are managed to meet, as a minimum, the primary contact recreation objective. Further parameters are added in Table 3.1 to ensure that water quality standards provide for life supporting capacity, ecosystem health, recreation, Maori customary use and natural character. These parameters should include: temperature, water clarity, pH, deposited sediment, dissolved oxygen, nutrients, and a narrative requirement for natural character.
Objective O24: Contact recreation and Maori customary use	Fish and Game	S308/023	Amend	Amend objective 024 to ensure that: <u>Water quality and quantity of aquifers, lakes, rivers, natural wetlands and the coastal water is managed including through land use provisions to ensure that life supporting capacity and ecosystem health are protected and that water quality and quantity is suitable for primary contact recreation and Maori customary use including by:</u> <u>(a) maintaining water quality and quantity where it current meets the freshwater objectives (numerical states) set in tables 3.1 to 3.4 and 3.4a</u> <u>(b) Improving water quality and quantity where it currently is more degraded than the freshwater objectives (numerical state) set in tables 3.1, 3.2, 3.3 and 3.4 and 3.4a are met by 2030</u> <u>(c) Maintain macroinvertebrate community health where the table 3.4 and 3.4a freshwater attribute states are achieved and where degraded are improved to achieve the freshwater attribute states by 2030</u> <u>(d) Reduce the frequency and duration of algal and cyanobacteria blooms to achieve the attribute states listed in table 3.1, 3.2, 3.4, and 3.4a by 2030.</u>

3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Fish and Game	S308/145	Amend	Amend Table 3.5 to include a Trophic Level Index for the lake type either at current state if the lake is healthy (oligotrophic) or where degraded set the TLI at mesotrophic. Amend the plan so that Lake Wairarapa is managed to achieve a TLI set at mesotrophic.
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Fish and Game	S308/144	Amend	<u>Amend Table 3.6 to delete the narrative in relation to nitrate levels and replace with numerical states for acceptable groundwater drinking concentrations, and insert requirements to maintain water quality and quantity, and where degraded such that the ecosystem health of connected surface waterbodies is impacted, groundwater quality and quantity is improved.</u>
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Wellington City Council	S286/011	Support	Support the provisions of the Plan that recognise and protect indigenous biodiversity, subject to the specific comments and amendments sought in Sections 2 and 3 of this submission.
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Sustainable Wairarapa Inc	S167/012	Not stated	Why does the plan not include key freshwater parameters to provide for life supporting capacity and ecosystem health?
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Sustainable Wairarapa Inc	S167/014	Not stated	Does the plan ensure that minimum flows, and core allocations safeguard the life supporting capacity, ecological processes, and natural character (hydrological regime) of freshwater and freshwater habitats?
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Sustainable Wairarapa Inc	S167/015	Not stated	Does the plan ensure that rivers are sustainably managed by flood protection and river management activities?
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Sustainable Wairarapa Inc	S167/006	Not stated	Stormwater issues are an important consideration in MDC's flood control plans

3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Royal Forest and Bird Protection Society	S353/032	Amend	Amend Table 3.8 as follows: (a) Include provision that defines "low frequency" of algal blooms;(b) Include measurable objectives for "seagrass and saltmarsh" and "invertebrates"(c) Identify mahinga kai species;(d) Develop specific objectives for Pauatahanui Inlet and Porirua Harbour
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Royal Forest and Bird Protection Society	S353/029	Support in part	[Table 3.5] (a) Soluble inorganic nitrogen (SIN = nitrate + nitrite + ammoniacal N): should not exceed 0.444 mg/L in any water body across the Region (bottom line). (b) Dissolved reactive phosphorus (DRP): should not exceed 0.01 mg/L in any water body (bottom line). Amend Table 3.5 to include the NOF lake attributes as well as the following additions:* (a) measurable parameters for macrophytes (defining dominance as a % cover); (b) and mahinga kai (identifying mahinga kai species).
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Royal Forest and Bird Protection Society	S353/030	Support in part	Amend Table 3.6 as follows: (a) Include provision that groundwater nitrate does not cause surface water nitrate to exceed objectives;(b) Include numeric measure of unacceptable effects on stygofauna communities.
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Royal Forest and Bird Protection Society	S353/031	Amend	Amend Table 3.7 so as it includes measurable objectives for plants and fish and identifies mahinga kai species

3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Royal Forest and Bird Protection Society	S353/028	Support in part	Identify mahinga kai species; [Table 3.4] Add objectives relating to: (a) Soluble inorganic nitrogen (SIN = nitrate + nitrite + ammoniacal N): should not exceed 0.444 mg/L in any water body across the Region (bottom line). (b) Dissolved reactive phosphorus (DRP): should not exceed 0.01 mg/L in any water body (bottom line). (c) Deposited sediment (fine silt or sand <2mm in diameter in naturally hard bottomed rivers and streams): should not exceed 20% cover of the bed or 10% of reference condition (based on the recommendations of Clapcott et al. 2011) OR alternatively deposited sediment objectives could be aligned with the Horizons One Plan numeric objectives in Schedule E. (d) Non-indigenous macrophytes should not exceed 50% of channel water surface area (based on the recommendations of Matheson et al. 2012).
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Federated Farmers of New Zealand	S352/087	Amend	Add new title for Objective O30 - <u>Recreational fishing</u>
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Federated Farmers of New Zealand	S352/082	Amend	Restructure [Table 3.8] to express objectives as numerics where possible, and to indicate priorities for whaitua attention.
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Federated Farmers of New Zealand	S352/075	Amend	Amend title: <u>Indigenous</u> biodiversity, aquatic ecosystem health and mahinga kai
3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Sustainable Wairarapa Inc	S167/001	Not stated	3.6, 4.5: Wetland (current) restoration management plans - how is progress being measured?

3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Sustainable Wairarapa Inc	S167/002	Not stated	Does the plan ensure that all remaining wetland habitats are protected as s6(c) RMA habitats?
Objective O25: Aquatic ecosystem health and mahinga kai	Porirua City Council	S163/042	Support	[Retain]
Objective O25: Aquatic ecosystem health and mahinga kai	Wairarapa Water User's Incorporated Society	S124/005	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Objective O25: Aquatic ecosystem health and mahinga kai	Michael John Slater	S113/059	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Objective O25: Aquatic ecosystem health and mahinga kai	Wairarapa Regional Irrigation Trust	S127/010	Amend	Amend to clarify the level of ecological health restoration sought to be encouraged. Amend Table 3.4 to provide a measurable environmental outcome over the life of the Plan whose benefits and costs can properly be evaluated under 32 to demonstrate that the benefits exceed the costs over time. Amend to make it clear if O25(c) is intended to be aspirational only insofar as it incorporates periphyton and MCI values for rivers and streams on the Wairarapa plains, and/or substitute qualitative environmental outcomes for the numerical values currently in Table 3.4.
Objective O25: Aquatic ecosystem health and mahinga kai	Kaiwairai Dairies Limited	S119/009	Amend	Table 3.6 nitrate levels are not defined, initially set at drinking water standard, with the Whaitua to make the final determination.
Objective O25: Aquatic ecosystem health and mahinga kai	Egon Guttke	S14/011	Amend	List the mahinga kai and taonga species relevant to the mahinga kai objective in Table 3.4.

Objective O25: Aquatic ecosystem health and mahinga kai	Hammond Limited	S132/003	Amend	Amend O25 as follows: To safeguard <u>provide for</u> aquatic ecosystem health and mahinga kai in fresh water bodies and coastal marine area: (a) water quality, flows, water levels and aquatic and coastal habitats are managed to maintain <u>provide for</u> aquatic ecosystem health and mahinga kai, and (b) restoration of aquatic ecosystem health and mahinga kai is encouraged <u>where appropriate</u> , and ...

Objective O25: Aquatic ecosystem health and mahinga kai	Trelissick Park Group	S88/002	Amend	Amend the Plan to include a mandatory zero effects on stormwater runoff any new developments.
Objective O25: Aquatic ecosystem health and mahinga kai	Minister of Conservation	S75/026	Support	Retain as notified, subject to changes sought in submission point S75/027
Objective O25: Aquatic ecosystem health and mahinga kai	Minister of Conservation	S75/028	Amend	Table 3.4 - Include an objective relating to channel water surface area cover by non-indigenous macrophytes: <50% macrophyte cover of cross-sectional area or volume, or <50% macrophyte cover of channel water surface area. Include a deposited sediment percent cover objective for all outstanding water bodies (Schedule A), rivers and lakes with significant indigenous ecosystem values (Schedule F1): <20% cover of the bed by fine silt or sand <2mm diameter (or within 10% cover of reference condition).
Objective O25: Aquatic ecosystem health and mahinga kai	Minister of Conservation	S75/027	Amend	All tables - Use numeric objectives in preference to narrative objectives, where possible, and replace words such as 'balanced' and 'unacceptable' with clear, meaningful terms that support the objective. For example, for the indigenous fish objective a measure of state to describe the indigenous community condition (such as a minimum fish index of biotic integrity).

Objective O25: Aquatic ecosystem health and mahinga kai	Minister of Conservation	S75/029	Amend	Table 3.8- Amend the table to include objectives for seagrass and saltmarsh, fish, sedimentation rate and mud content in the open coast.
Objective O25: Aquatic ecosystem health and mahinga kai	Bernie George	S396/005	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".

Objective O42: Soil health and erosion	Susannah and Mark Guscott	S317/081	Support	[Not stated].
Objective O42: Soil health and erosion	Fish and Game	S308/032	Amend	Amend Objective 042 to ensure that: <u>Land use is sustainably managed to protect the life supporting capacity of soils and where degraded to improve soil health and structure. That land use is sustainably managed so as to prevent loss of soils to freshwater habitats to achieve the freshwater objectives set in table 3.4 and 3.4a by 2030.</u>
Objective O42: Soil health and erosion	Horticulture NZ	S307/024	Amend	Amend Objective 042 The life supporting capacity of soils is maintained
Objective O42: Soil health and erosion	Horticulture NZ	S307/025	Amend	Add new objective: Accelerated soil erosion is reduced.

Objective O42: Soil health and erosion	Ravensdown Limited	S310/015	Support in part	Reword Objective O42 to read: <u>Soil health and function are protected and accelerated soil erosion is reduced.</u>
Objective O42: Soil health and erosion	Fertiliser Association NZ	S302/021	Oppose	Delete Objective O42 and replace with the following: Soils are healthy and productive, and accelerated soil erosion is reduced. <u>Soil health and function are protected and soil erosion is managed.</u>
Objective O42: Soil health and erosion	Rangitane o Wairarapa Inc	S279/052	Amend	Amend the objective to: create a linkage with the other objectives of the Plan that relate to aquatic ecosystem health so that an outcome is defined within the objective; and State that life-supporting capacity of soil is safeguarded and, where it has been degraded, enhanced to a level that supports a healthy ecosystem.
Objective O42: Soil health and erosion	Federated Farmers of New Zealand	S352/098	Amend	Soils are healthy and productive, and accelerated soil erosion <u>i n (named) priority catchments is reduced over time in partnership with landowners, industry and community</u>
Objective O43: Contaminated land	Rural Residents Environmental Society Incorporated	S125/007	Amend	Contaminated land is remediated and managed to protect human health, and protect vertebrate and invertebrate life.

Objective O43: Contaminated land	Kiwi Rail Holdings Limited	S140/024	Support in part	Amend Objective O43 Contaminated land is <u>identified and</u> managed to protect human health and the environment <u>from unacceptable contamination related effects.</u>
Objective O43: Contaminated land	Ravensdown Limited	S310/016	Support	Retain

Objective O43: Contaminated land	Fertiliser Association NZ	S302/022	Support	Retain
Objective O43: Contaminated land	Powerco	S29/007	Support	Retain O43 without further modification
Objective O43: Contaminated land	Rangitane o Wairarapa Inc	S279/053	Amend	Amend the objective to include direction to remediate and address existing contaminated land rather than simply avoiding or mitigating the consequences of contamination.
Objective O43: Contaminated land	The Oil Companies	S55/006	Support	Retain Objective O43 without further modification.
3.10 Land Use	Sustainable Wairarapa Inc	S167/009	Not stated	It has been suggested that Forest & Bird's submission on the National Environmental Standard on Plantation Forestry be appended to GWRC's proposed natural resource plan as it raises in that context erosion risks and consequences, sedimentation and water quality.
Objective O44: Land use impacts on soil and water	Java Trust Limited	S120/008	Oppose	Delete O4[4], P4 and P67; amend all related provisions accordingly; all incidental and consequential amendments.
Objective O44: Land use impacts on soil and water	Friends of the Paekakariki Streams	S112/026	Support	[Not stated]
Objective O44: Land use impacts on soil and water	Rural Residents Environmental Society Incorporated	S125/008	Amend	Amend to read: Land use activities will not create a contaminated site.
Objective O44: Land use impacts on soil and water	NZ Transport Agency	S146/063	Support in part	Amend Objective 44 The adverse effects on soil and water from land use activities are minimised <u>reduced to the extent practicable.</u>

Objective O44: Land use impacts on soil and water	Fish and Game	S308/034	Amend	Amend objectives O44, O46, and O47, or create new objectives, and create associated policies and rules to manage the impacts of water takes, land use and ancillary discharge activities on freshwater [See original submission p34-36 for further details].
Objective O44: Land use impacts on soil and water	Ravensdown Limited	S310/017	Support in part	Reword to: The <u>Significant</u> adverse effects on soil and water from land use activities are minimised <u>avoided, remedied or mitigated</u>
Objective O44: Land use impacts on soil and water	Fertiliser Association NZ	S302/023	Amend	Amend Objective O44 as follows: The adverse effects on soil and water from land use activities are minimised <u>avoided, remedied or mitigated.</u>
Objective O44: Land use impacts on soil and water	Horticulture NZ	S307/026	Amend	Land use activities will take all reasonable steps to avoid, remedy or mitigate adverse effects on soil and water.
Objective O44: Land use impacts on soil and water	Powerco	S29/008	Oppose	Modify Objective O44 as follows: The adverse effects on soil and water from land use activities are minimised <u>avoided, remedied, or mitigated</u>
Objective O44: Land use impacts on soil and water	Wellington International Airport Limited	S282/019	Amend	Amend Objective O44 as follows: The adverse effects on soil and water from land use activities are minimised <u>avoided, remedied or mitigated.</u>
Objective O44: Land use impacts on soil and water	Rangitane o Wairarapa Inc	S279/054	Amend	Amend the objective by replacing the reference to 'minimised' with 'avoided, remedied and mitigated'.
Objective O44: Land use impacts on soil and water	Holcim (New Zealand) Ltd	S276/008	Oppose	Delete or replace minimise with "avoid, remedy or mitigate".

Objective O44: Land use impacts on soil and water	Federated Farmers of New Zealand	S352/099	Amend	The adverse effects on soil and water <u>indigenous ecosystem and human health values from land use activities</u> are minimised <u>will be managed principally through an expanded non-regulatory programme in priority catchments, supported by rules prioritised to manage significant adverse effects from significant activities.</u>
Objective O44: Land use impacts on soil and water	Royal Forest and Bird Protection Society	S353/038	Oppose	Replace with: The adverse effects on soil and water from land use activities is managed to achieve the freshwater objectives in Table 3.4 -3.8.
Objective O44: Land use impacts on soil and water	The Oil Companies	S55/007	Oppose	Modify Objective O44 as follows: The adverse effects on soil and water from land use activities are minimised <u>avoided, remedied, or mitigated.</u>
Objective O45: Livestock access to waterbodies	Friends of the Paekakariki Streams	S112/027	Support	[Not stated]
Objective O45: Livestock access to waterbodies	Minister of Conservation	S75/037	Amend	Retain but amend so that the objective includes the coastal marine area.
Objective O45: Livestock access to waterbodies	Fish and Game	S308/037	Amend	Amend objective O45, and associated policies and rules to ensure that deer, cattle, and pigs are excluded from all waterbodies within 3 years on land under 16 degrees slope; on land over 16 degrees slope and for extensively farmed stock exclude cattle from areas which form a critical source of contaminant and sediment losses or which have sensitive instream values within 5 years. Exclude cattle, deer and pigs from all natural wetlands. Exclude sheep from natural wetlands with significant riparian values.

Objective O45: Livestock access to waterbodies	Rangitane o Wairarapa Inc	S279/055	Amend	Amend the objective to either include cross reference to other objectives in the Plan to state the outcomes to be achieved by the required reduction (e.g reduced to safeguard life supporting capacity) or 'reduced' should be replaced with 'avoided, remedied and mitigated'. Amend the objective to be clear that adverse effects of stock access to water bodies are to be avoided as a first priority, and otherwise those effects are to be remedied and mitigated. Amend the objective to be clear that adverse effects of livestock access to sites of significance to mana whenua, and other sites of significant indigenous biodiversity values are to be avoided.
Objective O45: Livestock access to waterbodies	Federated Farmers of New Zealand	S352/100	Amend	Amend as follows: The adverse effects of livestock access on surface water bodies <u>indigenous ecosystem and human health values are reduced over time, while maintaining reliable access to drinking water for stock</u>
Objective O45: Livestock access to waterbodies	Royal Forest and Bird Protection Society	S353/039	Oppose	Replace "reduced" with "avoided".
3.11 Discharges	David Wilson	S70/007	Support	[Retain Objectives O46-O51].
3.11 Discharges	Federated Farmers of New Zealand	S352/104	Amend	[Add new title for objectives O48-O50] Discharges <u>to water</u>
3.11 Discharges	Federated Farmers of New Zealand	S352/101	Amend	Amend title to Discharges <u>to Land</u>
Objective O46: Discharges to land	NZ Transport Agency	S146/065	Support in part	Amend Objective 46: Discharges to land are managed to reduce the runoff or leaching of contaminants to water <u>to the extent practicable</u> .
Objective O46: Discharges to land	Friends of the Paekakariki Streams	S112/028	Support	[Not stated]

Objective O46: Discharges to land	The Oil Companies	S55/008	Oppose	Modify Objective O46 as follows. Discharges to land are managed to reduce the <u>adverse effects of</u> runoff or leaching of contaminants to water
Objective O46: Discharges to land	Minister of Conservation	S75/039	Support	Retain as notified
Objective O46: Discharges to land	Atiawa ki Whakarongotai	S398/012	Support	[Retain objectives O46-O49 and O51]
Objective O46: Discharges to land	Porirua Harbour and Catchment Community Trust	S33/004	Amend	Strengthen the wording of Objective O46 to reflect the language and targets in the Porirua Harbour Strategy and Action Plan to reduce sediment inputs to harbour and waterways to more natural levels with a target of reducing sediment inputs by 50% by 2021, and sediment inputs to 1mm/year by 2031, and to significantly improve harbour water clarity and harbour flushing capacity.
Objective O46: Discharges to land	Fish and Game	S308/035	Amend	Amend objectives O44, O46, and O47, or create new objectives, and create associated policies and rules to manage the impacts of water takes, land use and ancillary discharge activities on freshwater [See original submission p34-36 for further details].
Objective O46: Discharges to land	Ravensdown Limited	S310/018	Oppose in part	Reword to: Discharges to land are managed to reduce the <u>control levels of</u> runoff or leaching of contaminants to water <u>in accordance with good management practices</u>
Objective O46: Discharges to land	Fertiliser Association NZ	S302/024	Amend	Amend Objective O46 as follows: Discharges to land are managed to reduce <u>control levels of</u> runoff or leaching of contaminants to water.
Objective O46: Discharges to land	Horticulture NZ	S307/027	Amend	Amend Objective O46 Discharges to land are managed to reduce the <u>potential</u> for runoff or leaching of contaminants to water.

Objective O46: Discharges to land	Masterton District Council	S367/059	Oppose	Amend as follows: Discharges to land are managed to reduce <u>the adverse effects of</u> runoff or leaching of contaminants to water.
Objective O46: Discharges to land	Powerco	S29/009	Oppose	Modify Objective O46 as follows: Discharges to land are managed to reduce the <u>adverse effects of</u> runoff or leaching of contaminants to water
Objective O46: Discharges to land	Rangitane o Wairarapa Inc	S279/056	Amend	Provide clear outcomes to be achieved, including by amending the objective to:Discharges to land are managed to avoid the runoff or leaching of contaminants to water where those contaminants, by themselves or in combination with other contaminants, will cause the freshwater objectives and limits in this Plan to be exceeded.
Objective O46: Discharges to land	South Wairarapa District Council	S366/059	Oppose	Amend Objective O46 to read as follows: Discharges to land are managed to reduce <u>the adverse effects of</u> runoff or leaching of contaminants to water.
Objective O46: Discharges to land	Federated Farmers of New Zealand	S352/102	Oppose	Delete
Objective O46: Discharges to land	Royal Forest and Bird Protection Society	S353/040	Oppose	Replace with:Discharges to land are managed in a manner that achieves the freshwater objectives in Table 3.4 -3.8.
Objective O47: Sediment runoff	Friends of the Paekakariki Streams	S112/029	Support	[Not stated]
Objective O47: Sediment runoff	NZ Transport Agency	S146/066	Support in part	Amend Objective 47 The amount of sediment-laden runoff entering water is reduced <u>to the extent practicable.</u>

Objective O47: Sediment runoff	Minister of Conservation	S75/040	Support	Retain as notified
Objective O47: Sediment runoff	Atiawa ki Whakarongotai	S398/035	Support	[Retain]
Objective O47: Sediment runoff	Porirua Harbour and Catchment Community Trust	S33/005	Amend	Strengthen the wording of Objective O46 to reflect the language and targets in the Porirua Harbour Strategy and Action Plan to reduce sediment inputs to harbour and waterways to more natural levels with a target of reducing sediment inputs by 50% by 2021, and sediment inputs to 1mm/year by 2031, and to significantly improve harbour water clarity and harbour flushing capacity.
Objective O47: Sediment runoff	Fish and Game	S308/036	Amend	Amend objectives O44, O46, and O47, or create new objectives, and create associated policies and rules to manage the impacts of water takes, land use and ancillary discharge activities on freshwater [See original submission p34-36 for further details].
Objective O47: Sediment runoff	Ravensdown Limited	S310/019	Amend	Reword to: The amount of Sediment-laden runoff entering water is reduced <u>managed in accordance with good management practices</u>
Objective O47: Sediment runoff	Mahaki Holdings LTD	S370/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Horticulture NZ	S307/028	Amend	Amend Objective 047 Minimise potential for sediment laden run off to water where current levels are elevated.
Objective O47: Sediment runoff	Julian and Ruth Blackett	S299/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .

Objective O47: Sediment runoff	Carter Families	S295/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Kennott Family Trust	S297/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Fertiliser Association NZ	S302/025	Amend	Amend Objective O47 as follows: The amount of sediment-laden runoff entering water is reduced <u>controlled</u> .
Objective O47: Sediment runoff	Powerco	S29/010	Support in part	Modify Objective O47 as follows: The amount of sediment-laden runoff entering water is reduced <u>as far as practicable</u> .
Objective O47: Sediment runoff	Wellington International Airport Limited	S282/020	Oppose	Delete O47
Objective O47: Sediment runoff	Bell Camp Trust	S294/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Land Matters LTD	S285/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Rangitane o Wairarapa Inc	S279/057	Amend	Provide a clear time-bound outcome statement within the objective, such as to avoid sediment-laden runoff to water where it will cause the freshwater objectives and limits in this Plan to be exceeded, and reduce existing sediment discharges to a level that will cause the freshwater objectives and limits to be met by no later than 2030.

Objective O47: Sediment runoff	Max Lutz	S348/126	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Federated Farmers of New Zealand	S352/103	Amend	Amend as follows: The amount of sediment-laden runoff entering water <u>from major infrastructure and subdivision developments</u> is reduced
Objective O47: Sediment runoff	Tim Mansell and Family	S351/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	Royal Forest and Bird Protection Society	S353/041	Oppose	Replace with "The adverse effects related to sediment laden water are avoided remedied or mitigated."
Objective O47: Sediment runoff	Waikanae Christian Holiday Park (El Rancho)	S346/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O47: Sediment runoff	USNZ	S349/084	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time</u> .
Objective O48: Stormwater networks	Wellington Water Limited	S135/045	Amend	Specify what these adverse effects are, particularly to those of stormwater quantity. Refer to those aspects that the stormwater network managers are able to control (which does not include land use).
Objective O48: Stormwater networks	CentrePort Limited (CentrePort)	S121/034	Support	Retain Objective O48 in its current form.
Objective O48: Stormwater networks	Friends of the Paekakariki Streams	S112/030	Support	[Not stated]

Objective O48: Stormwater networks	NZ Transport Agency	S146/067	Support	Retain
Objective O48: Stormwater networks	Wellington Water Limited	S135/224	Amend	Schedule N 'Stormwater management strategy' focus on the effects of the discharge rather than on managing the asset, and restrict itself to matters within the network manager's control.
Objective O48: Stormwater networks	Trelissick Park Group	S88/003	Amend	Amend the Plan to include a mandatory zero effects on stormwater runoff any new developments.
Objective O48: Stormwater networks	Minister of Conservation	S75/041	Support	Retain as notified
Objective O48: Stormwater networks	Atiawa ki Whakarongotai	S398/036	Support	[Retain]
Objective O48: Stormwater networks	Carterton District Council	S301/034	Amend	Amend Objective O48 by replacing the word 'effects' with 'significant adverse environmental effects'.
Objective O48: Stormwater networks	Masterton District Council	S367/060	Oppose in part	Amend as follows: Stormwater networks and urban land uses are managed so that proven <u>inappropriate or significant</u> adverse quality and quantity effects of discharges from the networks are improved over time.
Objective O48: Stormwater networks	Rangitane o Wairarapa Inc	S279/058	Amend	Amend the objective to provide a clear time-bound outcome statement within the objective, such as ... to a level consistent with achieving the objectives and limits in this Plan, and to avoid, remedy and mitigate local adverse effects on life-supporting capacity, mahinga kai, and significant sites.
Objective O48: Stormwater networks	Carlo Jaminola	S27/001	Amend	Who currently manages the 3 items: (1) management storm water, (2) reduce of flooding, (3) tree planting.

Objective O48: Stormwater networks	Federated Farmers of New Zealand	S352/105	Support	Retain
Objective O48: Stormwater networks	South Wairarapa District Council	S366/060	Oppose in part	Amend Objective O48 to read as follows: Stormwater networks and urban land uses are managed so that proven <u>inappropriate or significant</u> adverse quality and quantity effects of discharges from the networks are improved over time.
Objective O49: Wastewater discharges to land	Porirua City Council	S163/001	Not stated	This objective should acknowledge the need for a different policy approach that is appropriate for the metropolitan areas.
Objective O49: Wastewater discharges to land	Friends of the Paekakariki Streams	S112/031	Support	[Not stated]
Objective O49: Wastewater discharges to land	Wellington Water Limited	S135/220	Amend	Provision is made for re-consenting of existing coastal discharges from the wastewater treatment plants in the four metropolitan cities area, without new investigations of land-disposal alternatives. Alternatively, explicit provision be made for previous land disposal studies to be acceptable for this purpose.
Objective O49: Wastewater discharges to land	Wellington Water Limited	S135/222	Amend	The public health benefits of constructed bypass wastewater discharges in high rainfall events be recognised and provided for in the proposed plan
Objective O49: Wastewater discharges to land	Wellington Water Limited	S135/046	Amend	Redesign the objective to recognise the existing wastewater disposal infrastructure from existing facilities in the four metropolitan cities in the region. It needs to align with the objective of recognising and protecting (consistent with the RPS objective) regionally significant infrastructure and the existing community investment. It needs to refer to the assimilative capacity of the receiving environment, recognising that land disposal has its own limitations.

Objective O49: Wastewater discharges to land	Minister of Conservation	S75/042	Support	Retain as notified
Objective O49: Wastewater discharges to land	Atiawa ki Whakarongotai	S398/037	Support	[Retain]
Objective O49: Wastewater discharges to land	Masterton District Council	S367/061	Amend	Retain Objective O49. Provide a proactive regulatory framework with regards to discharge to land in order to encourage this to occur.
Objective O49: Wastewater discharges to land	Wellington International Airport Limited	S282/021	Amend	Amend Objective O49 as follows: Discharges of wastewater to land are promoted over discharges to fresh water and coastal water <u>where practicable</u> .
Objective O49: Wastewater discharges to land	Rangitane o Wairarapa Inc	S279/059	Amend	Retain as notified
Objective O49: Wastewater discharges to land	Federated Farmers of New Zealand	S352/106	Support	Retain
Objective O49: Wastewater discharges to land	South Wairarapa District Council	S366/061	Amend	Retain Objective O49. Provide a proactive regulatory framework with regards to discharge to land in order to encourage this to occur.

Objective O49: Wastewater discharges to land	Royal Forest and Bird Protection Society	S353/042	Support	Retain
Objective O50: Wastewater discharges to fresh water	Porirua City Council	S163/044	Support	[Retain]
Objective O50: Wastewater discharges to fresh water	Wellington Water Limited	S135/047	Amend	Apply to coastal water, add "where appropriate" to recognise the mixing available.
Objective O50: Wastewater discharges to fresh water	Friends of the Paekakariki Streams	S112/032	Support	[Not stated]
Objective O50: Wastewater discharges to fresh water	Minister of Conservation	S75/043	Support	Retain as notified
Objective O50: Wastewater discharges to fresh water	Atiawa ki Whakarongotai	S398/038	Support	[Retain]
Objective O50: Wastewater discharges to fresh water	Atiawa ki Whakarongotai	S398/013	Oppose	Discharge of human effluent to water should be prohibited. The objective should include a timeframe for the reduction of discharges.
Objective O50: Wastewater discharges to fresh water	Porirua Harbour and Catchment Community Trust	S33/006	Amend	Change "reduced" to "eliminated".

Objective O50: Wastewater discharges to fresh water	Nga Hapu o Otaki	S309/012	Oppose	Not stated
Objective O50: Wastewater discharges to fresh water	Carterton District Council	S301/033	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Objective O50: Wastewater discharges to fresh water	Carterton District Council	S301/035	Amend	Amend Objective O50 and the accompanying explanatory text to acknowledge the likely need for continued reliance on disposal of treated effluent to rivers for the foreseeable future to allow communities to work towards removal of such discharge from rivers over a time frame that is affordable and efficient. [See also submission point S301/024]
Objective O50: Wastewater discharges to fresh water	Kahungunu Ki Wairarapa	S300/017	Support	Not stated
Objective O50: Wastewater discharges to fresh water	Masterton District Council	S367/062	Support in part	Confirm in the Plan that the term "progressively reduced" does not necessarily mean within the life of this Plan, and can in fact be up to 35 years, where appropriate.
Objective O50: Wastewater discharges to fresh water	Rangitane o Wairarapa Inc	S279/060	Amend	Amend as: New or increases in existing discharges of wastewater to fresh water are not allowed and existing discharges of wastewater to water are progressively reduced so that they are fully phased out by no later than 2030.
Objective O50: Wastewater discharges to fresh water	Federated Farmers of New Zealand	S352/107	Support	Retain

Objective O50: Wastewater discharges to fresh water	South Wairarapa District Council	S366/062	Support in part	Confirm in the Plan that the term "progressively reduced" does not necessarily mean within the life of this Plan, and can in fact be up to 35 years, where appropriate.
Objective O50: Wastewater discharges to fresh water	Royal Forest and Bird Protection Society	S353/043	Support	Retain
Objective O51: Hazardous substances	Friends of the Paekakariki Streams	S112/033	Support	[Not stated]
Objective O51: Hazardous substances	Rural Residents Environmental Society Incorporated	S125/009	Amend	Amend to read: The discharge of hazardous substances to land is managed to protect human health, property, and the environment and will not create a contaminated site.
Objective O51: Hazardous substances	GE Free New Zealand	S139/001	Amend	Amend O51 to "the discharge of hazardous substances <u>and new organisms are</u> managed to protect human health, property and the environment.
Objective O51: Hazardous substances	Minister of Conservation	S75/044	Support	Retain as notified
Objective O51: Hazardous substances	Ravensdown Limited	S310/020	Oppose in part	Reword to: The discharge of hazardous substances is managed to protect <u>avoid, remedy or mitigate adverse effects on</u> human health, property and the environment.
Objective O51: Hazardous substances	Fertiliser Association NZ	S302/026	Amend	Amend Objective 051 as follows: The discharge of hazardous substances is managed to protect <u>avoid, remedy or mitigate adverse effects on</u> human health, property and the environment.
Objective O51: Hazardous substances	Powerco	S29/011	Oppose	Modify Objective 051 as follows: The discharge of hazardous substances is managed to <u>avoid adverse effects on</u> protect human health, property and the environment

Objective O51: Hazardous substances	Rangitane o Wairarapa Inc	S279/061	Amend	Amend to be clear that the discharge of hazardous substances into the environment is to be avoided as a first priority and where there are no alternatives to discharging hazardous substances, strict requirements around protecting human health, property and the environment should be in place.
Objective O51: Hazardous substances	The Oil Companies	S55/009	Oppose	Modify Objective O51 as follows: The discharge of hazardous substances is managed <u>to avoid adverse effects on</u> protect human health, property and the environment.
Objective O52: Efficient allocation	Wairarapa Regional Irrigation Trust	S127/014	Amend	Amend 052 (e) as follows: enabling water storage outside river beds.. Otherwise support.
Objective O52: Efficient allocation	Wairarapa Water User's Incorporated Society	S124/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Michael John Slater	S113/060	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Wellington Water Limited	S135/048	Amend	Delete "and maximised" from the initial sentence. In (a) clarify what "efficient" means. Clarify the meaning of good management practice in the context of (b). Suggest (c) be reworded as "increasing to the extent that is reasonably practicable the reuse and recycling of water and recovery of contaminants" or something similar.
Objective O52: Efficient allocation	Hammond Limited	S132/007	Support	Retain O52.

Objective O52: Efficient allocation	Sandy Bidwell	S399/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Bernie George	S396/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Atiawa ki Whakarongotai	S398/014	Not stated	The objective should ensure that water use is necessary. Numerical measures should be included to quantify what is meant by "efficiency" of allocation.
Objective O52: Efficient allocation	Mike Moran	S400/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Stewart Weatherstone	S392/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Hayden Thurston	S390/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Gerard Vollebregt	S388/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Richard Osborne	S384/012	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>

Objective O52: Efficient allocation	Jim Hedley	S340/016	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Edward Handyside	S321/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	A.J Barton and Ongaha Farms Limited	S327/006	Support in part	The submitter would like to see the addition of " <i>the application of most appropriate practice</i> ".
Objective O52: Efficient allocation	Susannah and Mark Guscott	S317/080	Support	[Not stated].
Objective O52: Efficient allocation	Bob Tosswill	S337/023	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	NDR and BA Davies	S335/007	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Objective O52: Efficient allocation	Fish and Game	S308/038	Amend	Amend objective O52 to ensure that water take and use is 1) necessary, 2) reasonable, and where it is both necessary and reasonable it is 3) efficient. Include numerical criteria for technical efficiency and for what is considered reasonable. [See original submission p37-38 for further detail].
Objective O52: Efficient allocation	Susannah and Mark Guscott	S317/006	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>

Objective O52: Efficient allocation	Nga Hapu o Otaki	S309/011	Oppose	Not stated
